THE QUALITY CONFIRMS THE LIFE

► Our Vision

Leading Technology Industry in Material Handling and Superior Customer Closeness

Pemimpin dalam Teknologi Industri untuk penanganan material dan teratas dalam hal kedekatan pelanggan

► Our Motto

The Quality Confirms The Life

Kualitas menentukan Kehidupan

► Our Mission

1. Increasing the competence of human resources
 2. Building and providing material-moving equipments, of best quality, service and after-sales, with competitive pricing
 3. Ever-improving the reputation of the company for customers
 4. Growing the company into sustainability, in terms of income, productivity, and the welfare of employees
-
1. Meningkatkan kompetensi sumber daya manusia
 2. Mewujudkan dan menjual alat untuk memindahkan material dari satu tempat ke tempat yang lain dengan mutu, pelayanan dan purna jual yang terbaik dengan harga yang kompetitif
 3. Meningkatkan reputasi perusahaan di hadapan pelanggan
 4. Mewujudkan pertumbuhan perusahaan yang berkesinambungan dalam hal pendapatan, produktivitas dan kesejahteraan karyawan

► About

Established in 1990 in Jakarta, PT Jakarta Prima Cranes or more commonly called as JPC, is a nationwide private EPC company engaged in Bulk Material Handling Systems, as well as Energy and Marine Equipment.

Didirikan pada tahun 1990 di Jakarta. PT Jakarta Prima Cranes yang biasa disebut JPC adalah sebuah perusahaan swasta EPC berskala nasional yang bergerak di bidang Bulk Material Handling System, dan juga Energy and Marine Equipment.

" JPC IS THE FIRST NATIONAL COMPANY IN INDONESIA WHICH IS ENGAGED IN THE BULK MATERIAL HANDLING TECHNOLOGY."

As a joint business venture of the two large companies PT Tunas Sakti Persada and PT Graha Curah Niaga, JPC generally manages medium-scale projects within a contract value ranging between 5 to 35 million US dollars. The company is also granted with the certificates ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and ISO 37001:2016 , which prove that the business is operated in a professional manner with emphasis on quality, safety, and environmental sustainability. For more than 30 years, JPC has completed hundreds of projects spanning the entire territory of Indonesia, all of which are with high integrity and a commitment to always provide the best service to our customers.

Merupakan bagian dari dua grup perusahaan besar yaitu PT Tunas Sakti Persada dan PT Graha Curah Niaga, JPC umumnya mengelola proyek dalam skala menengah dengan nilai kontrak berkisar antara 5 s/d 35 juta US dollar. Kepemilikan sertifikat ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 dan ISO 37001:2016 menunjukkan bahwa JPC telah menjalankan usaha secara profesional dengan mementingkan kualitas, keselamatan kerja, serta kelestarian lingkungan. Dengan integritas tinggi serta komitmen untuk selalu memberikan pelayanan terbaik, selama lebih dari 30 tahun, JPC telah menyelesaikan ratusan proyek yang tersebar di seluruh wilayah Indonesia.

► Products & Services

BULK MATERIAL HANDLING SYSTEM

JPC provides bulk product material handling systems from overhead cranes and conveyor systems, which are commonly used in industrial manufacturing, logistics and mining. As for conveyor systems, JPC is an authorized distributor of Shumar - South Africa. JPC provides comprehensive services for bulk material handling systems, starting from the design, component fabrication installation, testing, commissioning, training and maintenance, until the certification process of the system that is already built. In addition to the full support of experts, JPC also has various structural analysis programs, complete with its official licenses, to ensure the accuracy of the calculations.

JPC menyediakan produk bulk material handling system yang dalam hal ini berupa produk overhead cranes dan conveyor systems yang umumnya dipergunakan di industri manufaktur, logistik, dan pertambangan. Dalam bidang conveyor systems, JPC memiliki status sebagai distributor resmi dari Shumar Afrika Selatan. JPC menyediakan layanan menyeluruh untuk bulk material handling systems, mulai dari perancangan, fabrikasi komponen, instalasi, pengujian, commissioning, pelatihan, perawatan, hingga proses sertifikasi sistem yang telah dibangun. Selain didukung tenaga ahli yang lengkap, JPC juga memiliki berbagai program analisa struktur, lengkap dengan lisensi resmi, untuk menjamin akurasi perhitungan.

OVER-HEAD CRANES

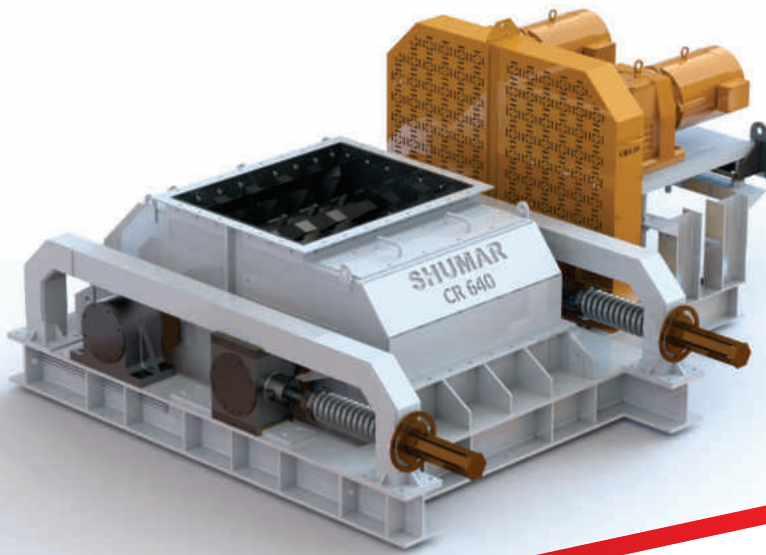

THE CORE OF LIFTING IN INDUSTRIAL CRANES

JPC has decades of experience working in close cooperation with our customers in various industries. We serve a broad range of customers, including general manufacturing, process industries and terminals.

The key component package is integrated to work in unison, as the core of the crane. We do not just design every component; we design the interaction between them specifically for crane use. This in-house approach allows us to satisfy customer's specific needs with the benefits of high-volume manufacturing.

JPC memiliki puluhan tahun pengalaman dalam bekerja sama dengan para pelanggan kami dalam berbagai macam industri. Kami melayani berbagai jenis pelanggan, termasuk manufaktur umum, industri proses, dan terminal.

Paket komponen kunci dirancang terintegrasi untuk bekerja secara harmonis, sebagai inti dari crane. Kami tidak hanya merancang semua komponen, tapi juga interaksi antara komponen- komponen tersebut secara khusus untuk penggunaan pada crane. Pendekatan in-house ini memungkinkan kami untuk memenuhi kebutuhan spesifik masing- masing pelanggan kami, dengan keunggulan produksi volume tinggi.

RAIL SYSTEMS

What does it take to become one of the world's foremost authorities and providers of crane rail solutions? passion, commitment, drive and innovation backed with technical and engineering excellence. For more than 50 years, Gantrail's total focus on crane rail solutions has led to Gantrail's unwavering dedication to outstanding product performance, total client satisfaction and quality in all projects.

JPC with Gantrail is recognized today as the name to trust; we are able to add value to every project we manage, whether through efficiencies in cost, operations or by delivering total peace of mind and cutting edge innovations, we have the experts, the resource and the experience to meet your brief.

Apa yang diperlukan untuk menjadi salah satu otoritas dan penyedia solusi rel crane terkemuka di dunia? Semangat, komitmen, dan inovasi yang didukung oleh keunggulan teknis dan rekayasa. Selama lebih dari 50 tahun, fokus total Gantrail pada solusi rel telah menghasilkan dedikasi teguh Gantrail untuk kinerja produk yang luar biasa, kepuasan total klien, dan kualitas dalam semua proyek.

JPC dengan Gantrail - sekarang dikenal sebagai nama yang terpercaya, kami mampu memberi nilai tambah pada setiap proyek yang kami kelola, baik melalui efisiensi biaya, operasi, atau dengan memberikan ketepatan dan inovasi mutakhir, kami memiliki para ahli, sumber daya, dan pengalaman untuk memenuhi segala kebutuhan Anda

DOUBLE ROLL CRUSHERS

Shumar was established in 1957 as a general engineering workshop, to service the local coal industry and specializing in the building of DMS Plants, designed and build its first crusher in 1964. Shumar specialize in the design, sizing and manufacture of crusher in 1987.

Shumar started exporting crushers internationally in 1996 and have exported crushers to Australia, Indonesia, China and many others countries. PT JPC has supplied more than 40 units of Shumar crushers.

Shumar didirikan pada tahun 1957 sebagai bengkel teknik umum, untuk melayani industri batubara lokal dan mengkhususkan diri dalam pembangunan Pabrik DMS, merancang dan membangun crusher pertamanya pada tahun 1964. Shumar berspesialisasi dalam desain, ukuran dan pembuatan penghancur pada tahun 1987.

Shumar mulai mengeksport crusher secara internasional pada tahun 1996 dan telah mengeksport crusher ke Australia, Indonesia, Cina dan banyak negara lainnya. PT JPC telah memasok lebih dari 40 unit crusher Shumar.

GENMA

GENMA have a first-class design and manufacturing facility in Nantong. Their parent company, RHM, also manufactures stackers and reclaimers, conveying systems and other equipment for companies such as MacGregor, Siwertel and Sandvik, and has a first-class manufacturing level. GENMA products reliable quality and have strong order fulfillment capabilities. The equipment is very sophisticated. GENMA leads the home market in the design, manufacturing and test of especially Ship-loader Unloader system.

ROCK BREAKER BOOM SYSTEM JPC-YZH

Rockbreaker boom system are a safer way to manage blockages and to clear build up in the crusher cavity. By adding a rockbreaker boom system in your primary crushing station, you can safely and significantly cut downtime of your plant, performance-proven Rockbreaker Boom System from Jinan JPC-YZH Machinery Equipment Company (China) are specifically designed to keep your plant running at maximum productivity with maximum cost-efficiency. JPC-YZH Rock Breaker boom system consist of four major component : Pedestal Boom, Hydraulic Hammer, Hydraulic Power Unit & Operating Control.

RUBBER FENDER & MARINE EQUIPMENTS

In the marine industry, JPC collaborates with Rubber Fender manufacturers with international quality standards at relatively more competitive prices. JPC provides Fender products along with fender installation and maintenance services. JPC also has experience in providing deck machineries, port machineries & marine equipment as a whole.

Dalam industri kelautan, JPC bekerjasama dengan produsen-produsen Rubber Fender dengan standar kualitas internasional dengan harga yang relatif lebih kompetitif . JPC menyediakan produk-produk Fender bersama dengan pemasangan fender dan layanan pemeliharaannya. JPC juga memiliki pengalaman dalam menyediakan deck machineries, port machineries & marine equipments secara keseluruhan.

MILESTONE

1990 - PRESENT

1990 Established in Jakarta with the status as an authorized distributor of Konecranes overhead cranes

1993 Started a coal-handling facility business and became a distributor for the Roxon Oy conveyor products.

1999

- Built a repair service facility in Balikpapan.
- Received the status as distributor of Sandvik.

2001 Became an agent of Shumar Engineering from South Africa for the "double roll crusher" products

2012 Obtained status as a distributor for Phoebus Conveyor Belt

2014 Became the sole distributor of magnetic separation products of Dings - USA

2019-Present

Addition of multiple supporting products, such as :

- Gantrail rail system (UK)
- Bando Chain System (S.Korea)
- Asgco Belt Cleaner (USA)
- YZH Rock & Coal breaker system (China)
- TX roller & pulley (China)
- Genma Machineries (China)
- Fomotech (Taiwan)
- and many others

▶ Product Quality

In managing the business, JPC targets the market segment with concerns on quality. Because of this, JPC has a policy to only provide products that are already standardized and Internationally recognized in terms of quality, which generally refers to European quality standards. This policy in product procurement was implemented in order to meet the needs of the clients to operate efficiently for a long time. Quality products will reduce the occurrences of downtime.

Dalam mengelola bisnis ini, JPC menysasar segmen pasar yang mengutamakan kualitas. Untuk itu, dalam pengadaan produknya, JPC memiliki kebijakan untuk hanya menyediakan produk-produk berkualitas yang telah memiliki standar dan diakui kualitasnya secara internasional, yang pada umumnya mengacu pada standar kualitas Eropa. Kebijakan ini diambil guna memenuhi kebutuhan klien untuk mendapatkan efisiensi dalam jangka panjang. Produk berkualitas akan mengurangi terjadinya downtime.

"FOR JPC, "THE QUALITY CONFIRMS THE LIFE" IS NOT JUST A SLOGAN; IT IS SOMETHING WE HAVE PROVEN FOR OVER 30 YEARS USING THE BEST INTERNATIONAL PRODUCTS IN THE MARKET."

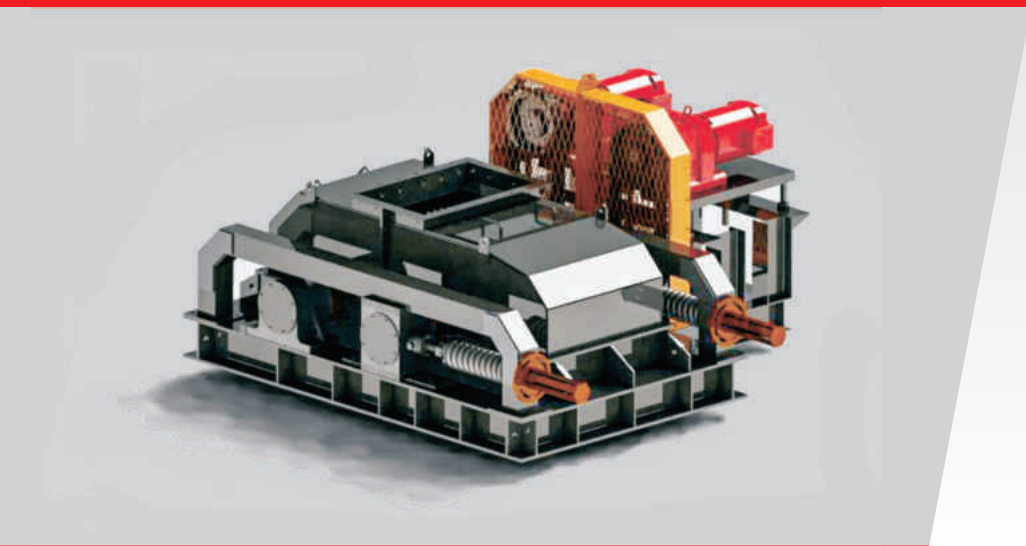

JPC has many experiences on the Services as well, especially belt services, rail services, crane services to name a few.

JPC juga mempunyai banyak pengalaman dalam bidang Services, terutama belt services, rail services, crane services dan masih banyak lagi.

INTERNATIONAL PRODUCTS WITH COMPETITIVE PRICING

As a local company with international products, offices, fabrication supporting components, and service centers in Indonesia that are all supported by a certified workforce, JPC has the advantage of providing international quality services at more competitive prices compared to foreign firms.

Sebagai perusahaan lokal dengan produk internasional, kantor, komponen-komponen pendukung fabrikasi, serta service centre di Indonesia, yang didukung tenaga kerja tersertifikasi, JPC memiliki keunggulan dalam layanan berkualitas internasional dengan harga yang lebih kompetitif dibanding dengan perusahaan-perusahaan asing.

MORE THAN 30 YEARS OF EXPERIENCE

The experience and continuous learning for more than 30 years has given JPC the ability to provide the best quality services there is. The support of competent human resources in terms of well-documented technical and project-management capabilities and timeliness made JPC an EPC company with international-standard services for years.

Pengalaman dan proses belajar terus menerus selama lebih dari 30 tahun telah membuahkan kemampuan dalam memberikan kualitas layanan yang terbaik. Dukungan sumber daya manusia yang kompeten dari sisi kemampuan teknis maupun project management yang terdokumentasi dengan baik, serta ketepatan waktu, telah menjadikan JPC sebagai perusahaan EPC dengan layanan berstandar internasional selama bertahun-tahun.

"THE EXPERIENCE AND LEARNING WE HAVE GAINED FOR THE PAST 30 YEARS HAS MADE JPC A NATIONAL PRIVATE COMPANY WITH INTERNATIONALLY-RECOGNIZED DOCUMENTATION STANDARDS."

FABRICATION WORKSHOP

JPC has a component fabrication workshop located in the area of Gunung Putri, Bogor, West Java, with a total area of 1,800 m². This workshop is used to prepare the supporting structure of the system that will be built, as well as a temporary storage warehouse. The workshop is supported with a complete range of equipment and certified technicians. With a fabrication facility of its own, JPC is able to better control the quality and cost efficiency of the supporting structure produced.

JPC memiliki workshop fabrikasi komponen yang terletak di wilayah Gunung Putri, Bogor, Jawa Barat, dengan luas area sebesar 1.800 m². Workshop ini digunakan untuk menyiapkan struktur pendukung dari sistem yang hendak dibangun, dan juga sebagai gudang penyimpanan sementara. Workshop ini didukung oleh peralatan yang lengkap dan teknisi yang tersertifikasi. Dengan adanya fasilitas fabrikasi milik sendiri, JPC lebih mampu mengontrol kualitas serta efisiensi biaya dari struktur pendukung yang dihasilkan.

COMPLETE SERVICE CENTRE FACILITIES

JPC has a service centre with complete facilities located in Jakarta, Gunung Putri, Pekanbaru, Balikpapan, Kotabaru, Asam-Asam, Banyuwangi, Berau and Meulaboh. JPC also offers on-call services, maintenance contracts, inspections, repairs, reconditionings, overhauls or capacity expansion services. We are ready to help on-shore or off-shore repairs with our 24-hour service, including holidays, especially for urgent matters.

JPC memiliki service centre dengan fasilitas lengkap yang berlokasi di Jakarta, Gunung Putri, Pekanbaru, Balikpapan, Kotabaru, Asam-Asam, Banyuwangi, Berau, dan Meulaboh. JPC melayani mulai dari on-call service, maintenance contract, inspection, perbaikan, rekondisi, overhaul, atau layanan pengembangan kapasitas. Kami siap melakukan perbaikan di darat maupun di laut dengan layanan 24 jam, termasuk di hari libur, khususnya untuk masalah yang mendesak.

BRANCH OFFICE / REP. OFFICES

To further simplify the process of communication and customer service, in addition to our headquarters in Jakarta, we have a branch and representative offices spread across many cities in Indonesia, such as in Gunung Putri, Surabaya, Balikpapan, Kotabaru, Asam-Asam, Medan, Pekanbaru, Meulaboh, Berau, and Banyuwangi.

Untuk lebih mempermudah proses komunikasi dan layanan pelanggan, selain kantor pusat kami di Jakarta, kami memiliki kantor cabang dan perwakilan yang tersebar di banyak kota di Indonesia, seperti di Gunung Putri, Surabaya, Balikpapan, Kotabaru, Asam-Asam, Medan, Pekanbaru, Meulaboh, Berau, dan Banyuwangi.

HUMAN RESOURCES

Engineering Team

JPC is run by professional staffs and employs approximately 250 people. It is also supported by engineering personnel from the civil, architecture, electrical engineering, mechanical, and electrical fields, as well as other related experts. Our technicians are certified and experienced for more than 30 years of work. Experts with great skills, partnered with a long experience in the industry, allow us to design and build bulk material handling systems according to the needs of the clients. With a complete, skillful and experienced team, JPC is able to design a structure that is easy to be modified for future expansions so that the client would be able to save money from changing the construction later on when it becomes necessary.

JPC memiliki tenaga profesional dengan jumlah karyawan kurang lebih 250 orang dan didukung dengan tenaga engineering yang lengkap mulai dari tenaga sipil, arsitektur, elektro, mekanikal, eletrikal, dan berbagai tenaga ahli terkait lainnya. Tenaga teknik kami bersertifikat serta berpengalaman lebih dari 30 tahun. Tenaga ahli, ditambah dengan pengalaman panjang dalam industri terkait, memungkinkan kami untuk merancang dan membangun sistem bulk material handling sesuai kebutuhan klien. Dengan tim yang lengkap, terampil, dan berpengalaman, JPC mampu merancang struktur yang mudah dimodifikasi untuk ekspansi di masa depan, sehingga klien akan dapat berhemat ketika perubahan konstruksi diperlukan di kemudian hari

► Standardization of Safety

As an EPC company that professionally works with clients who demand a high level of safety in the oil & gas industry, JPC always pays attention to the standardization of safety and health of its employees. One way to do this is to ensure that the company meets applicable safety standards. Currently, JPC has obtained safety certification such as:

Sebagai perusahaan EPC yang profesional dengan klien-klien yang menuntut tingkat keselamatan kerja yang tinggi seperti pada industri migas (minyak & gas), JPC senantiasa memberikan perhatian penuh pada standarisasi keselamatan dan kesehatan karyawannya. Salah satu cara yang dilakukan adalah dengan memastikan perusahaan memenuhi standar keselamatan yang berlaku. Saat ini JPC telah mendapatkan sertifikasi keselamatan kerja seperti:

- **ISO 45001:2018**
- **CSMS (Contractor Safety Management System)**
- **SMKP (Sistem Manajemen Keselamatan Pertambangan)**
